Professional Working **English**

Limited Working **German**

Bilingual **Ukrainian & Russian**

PROJECTS

MyFlix (React)

- Implemented a **RESTful API** using **Node.js** and **Express**, coupled with a non-relational **MongoDB database**. This API retrieves of movie and user data from the database through standard HTTP requests.
- Implemented **JWT authentication**, tested the API endpoints with Postman, hosted the API on Render.
- Created a single-page application using **React** where users can search for movies, add and remove them from their list of favorite movies. They can also register, change their data or delete the account.

EDUCATION

Pharmacy, Industrial Pharmacy

September 2017 - June 2020 Ukraine

The College of the
Kyiv International University

WORK EXPERIENCE

WAITRESS

- Increased overall customer satisfaction, leading to positive online reviews (at least 2 per shift) and repeat business by collaborating with the kitchen staff to ensure timely delivery, and providing personalized recommendations.
- Successfully mentored a team of waitstaff, leading to the promotion of 4 individuals to managerial positions by implementing a structured training program to enhance their skills and customer service.

IL Molino

August 2020 - February 2022

Ukraine

PHARMACIST

- Successfully increased the speed of customer service (to 60+ customers daily) by transforming the workplace into a well-organized and compliant environment and implementing a comprehensive documentation system.
- Improved patient adherence, leading to better health outcomes and a decrease in emergency medication requests by conducted regular educational sessions to inform customers about the importance of adhering to prescribed medications and potential side effects.
